

PRESS RELEASE

The Foreign Resort is energetic, restless, new wave rock. The music comprises the noisy as well as the gentle, resonant vocals rambling between twitchy and frayed guitars and a defiant rhythm section – The Cure stumbling into Sonic Youth.

February 2009 saw the Danish release of The Foreign Resort's debut album, "Offshore," on vinyl in cooperation with the classic Copenhagen vinyl store "Smukstoej". Splitting the album into two sides emphasizes the two moods of "Offshore" – the extroverted radio songs of Side A and the more introspective and intense feeling of Side B.

While The Foreign Resort hit the road in Denmark, Germany, Italy and United States, the Danish music press lauded the record:

"The Foreign Resort has with great international sound carefully measured the balance between the high waving and the fragile." – Gaffa Magazine

"Expressively, well done, meaningful and spell-binding" – diskant.dk.

"Offshore" was produced by Bo Karlsson and mastered by Jan Eliasson (Spleen United, The Raveonettes). The album is released by Flat Ape Music and is so far distributed in Denmark through Labelkollektivet, in the USA through Three Ring Records and in Italy through Black Nutria.
